```
.detailed-view-heading {
  color: white;
  font-size: 22px;
  font-family: "Roboto";
  font-weight: bold;
  padding: 24px;
}

.detailed-view-bg-container {
  background-image: url("Image URL");
  background-size: cover;
  height: 100vh;
}
```

Adding a Detailed View Card

Taj Mahal

The Taj Mahal is considered to be the greatest architectural achievement in the whole range of Indo-Islamic architecture. Its recognised architectonic beauty has a rhythmic combination of solids and voids, concave and convex and light shadow; such as arches and domes further increases the aesthetic aspect. Not a piece of architecture, as other buildings are, but the proud passions of an emperor's love wrought in living stones.

Link color
Additional content
Dismissing
JavaScript behavior
Triggers
Methods
Events

Examples

Alerts are available for any length of text, as well as an optional dismiss button. For proper styling, use one of the eight required contextual classes (e.g., `.alert-success`). For inline dismissal, use the [alerts jQuery plugin](#).

A simple primary alert—check it out!

Desktop View

With Indicators

The screenshot shows the Bootstrap documentation website. The top navigation bar includes links for Home, Documentation, Examples, Icons, Themes, Expo, and Blog. A purple sidebar on the left contains a search bar and a list of components: Getting started, Layout, Content, Components (Alerts, Badge, Breadcrumb, Buttons, Button group, Card), Carousel (Collapse, Dropdowns, Forms, Input group, Jumbotron, List group), and a link to the GitHub repository. The main content area features a title 'With indicators' with a yellow border. Below it is a note: 'You can also add the indicators to the carousel, alongside the controls, too.' A large dark gray box displays a carousel slide with the text 'Third slide' in the center. To the right of the slide are left and right navigation arrows. A vertical list of options on the far right includes: How it works, Example, Slides only, With controls, With indicators (which is highlighted with a yellow border), With captions, Crossfade, Individual, .carousel-item, interval, Usage, Via data attributes, Via JavaScript, Options, Methods, and a long list of method names starting with .carousel(options) and ending with .carousel('to').

Desktop View

Copy Code

This screenshot shows the same documentation page as the previous one, but the 'With indicators' example has been selected. The code block in the main content area is highlighted with a yellow border and includes a 'Copy' button with a blue outline. The code itself is a snippet of HTML and CSS for a carousel with indicators.

```
<div id="carouselExampleIndicators" class="carousel slide" data-ride="carousel">
  <ol class="carousel-indicators">
    <li data-target="#carouselExampleIndicators" data-slide-to="0" class="active"></li>
    <li data-target="#carouselExampleIndicators" data-slide-to="1"></li>
    <li data-target="#carouselExampleIndicators" data-slide-to="2"></li>
  </ol>
  <div class="carousel-inner">
    <div class="carousel-item active">
      
    </div>
    <div class="carousel-item">
      
    </div>
    <div class="carousel-item">
      
    </div>
  </div>
  <a class="carousel-control-prev" href="#carouselExampleIndicators" role="button">
    <span class="carousel-control-prev-icon" aria-hidden="true"></span>
    <span class="sr-only">Previous</span>
  </a>
  <a class="carousel-control-next" href="#carouselExampleIndicators" role="button">
    <span class="carousel-control-next-icon" aria-hidden="true"></span>
  </a>
</div>
```

Embeds

Create responsive video or slideshow embeds based on the width of the parent by creating an intrinsic ratio that scales on any device.

Limited time offer: Get 10 free Adobe Stock Images. ads via Carbon
MAKE IT WITH ADOBE STOCK. Get 10 free Images.

About

Rules are directly applied to `<iframe>`, `<embed>`, `<video>`, and `<object>` elements; optionally use an explicit descendant class `.embed-responsive-item` when you want to match the styling for other attributes.

Pro-Tip! You don't need to include `frameborder="0"` in your `<iframe>`s as we override that for you.
