## Building Your Own Responsive Website

## Building Your Own Responsive Website

Let's Build a Responsive Website  
for a Restaurant

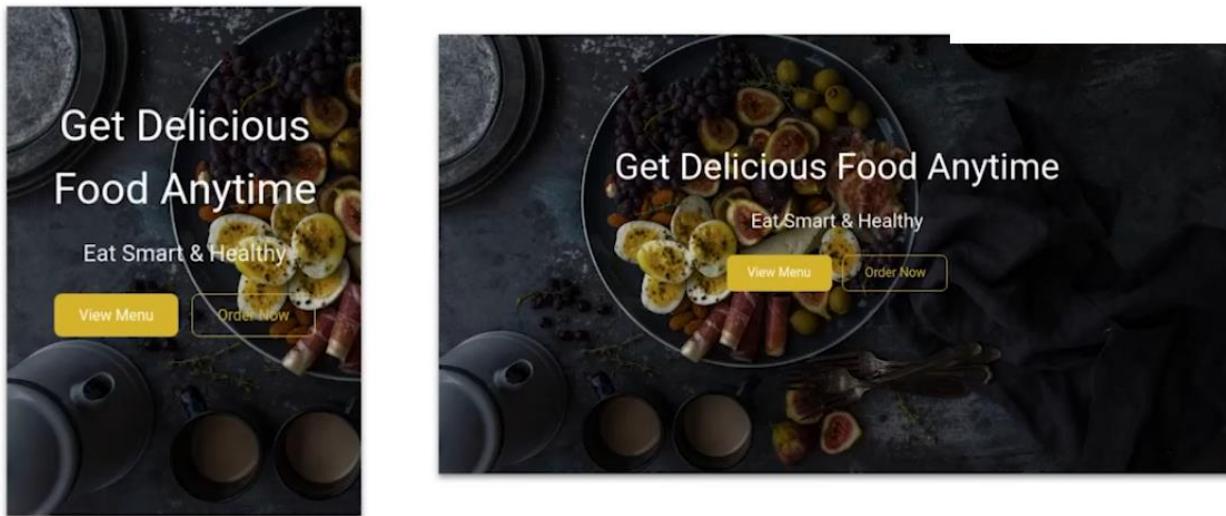

Example - Restaurant Website

## Navbar Section

The image shows two side-by-side mobile device screens. Both screens display the FoodMunch logo at the top left, which consists of a yellow square with a white 'F' and a grey square with a white 'M', followed by the word 'FoodMunch' in a smaller font. To the right of the logo is a white button with three horizontal lines. The top screen shows a light gray background with the same logo and menu icon. The bottom screen shows a white background with the same logo and menu icon, along with a navigation bar below it containing links for 'Why Choose Us?', 'Explore Menu', 'Delivery & Payment', and 'Follow Us'.

## Why Choose Us? Section

The image shows two versions of a 'Why Choose Us?' section from a restaurant website. Both versions have a header 'Why Choose Us?' and a sub-header 'We use both original recipes and classic versions of famous food items.' Below this, there are three cards: 'Food Service' (with a chef's hat icon), 'Fresh Food' (with a fruit and vegetable icon), and 'Best Offers' (with a tag icon). The left version has a light gray background and includes a quote from 'Chef Lenam Lepcha'. The right version has a white background and includes a quote from 'Food Service India'. Both versions have identical card descriptions and offer details.

## Agenda

## Navbar and Banner Sections

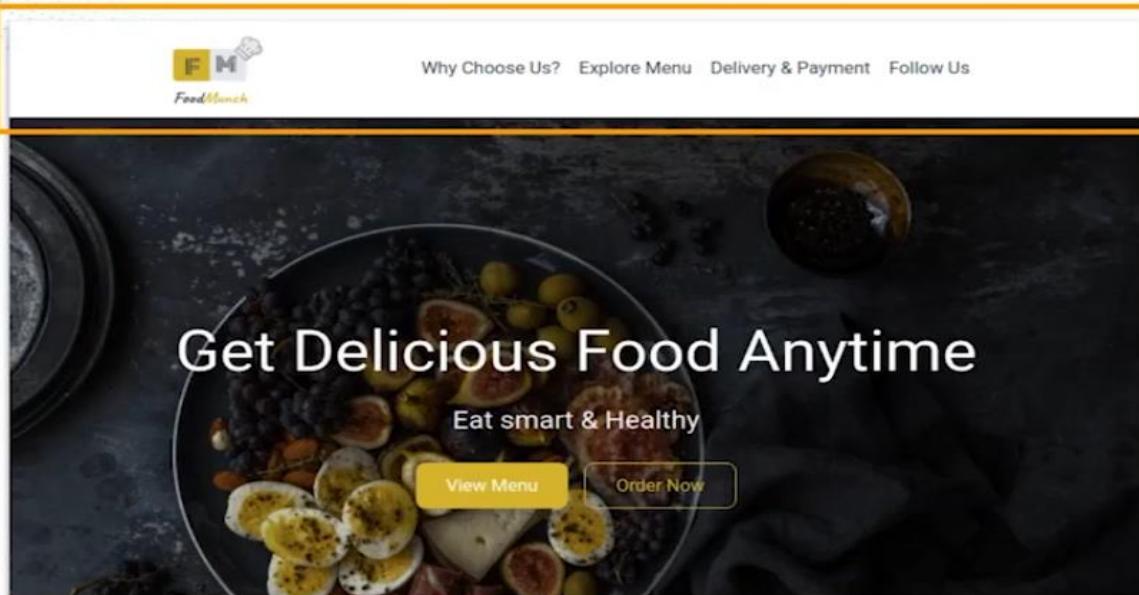

The diagram shows a screenshot of a restaurant website with two orange arrows pointing to specific sections:

- An arrow points to the top navigation bar with the text "Navbar Section".
- An arrow points to the main banner image with the text "Banner Section".

The website features a dark background with a central banner displaying a dish and the text "Get Delicious Food Anytime" and "Eat smart & Healthy". The navigation bar includes links for "Why Choose Us?", "Explore Menu", "Delivery & Payment", and "Follow Us". Call-to-action buttons "View Menu" and "Order Now" are at the bottom.

Why were the styles  
not applied?

# Specificity

Bootstrap already applied styles to the Navbar Items.

So, to override them we need to use the selectors with higher specificity

## Styling

### Adding ID's for Nav Items

HTML

```
...
<a class="nav-link active" id="navItem1" href="#">
